

HEAT SHRINK

MARATHON Heat Shrink provides maximum insulation and weatherproofing protection for your cable connections. Matching industry standard sizes and application, Marathon Heat Shrink provides an economical long term solution in protecting cable connections and splices against age and weathering elements. Available in 11/13 and 15/17 sizes in 48-inch lengths.

Features & Benefits

- 3:1 shrink ratio
- Craft friendly installation
- Exceptional split resistance
- Strong adhesive bond for long term protection
- Selective strippability
- Minimal heat required to produce error free installation without splitting
- Thermochromatic lines change color to signal waterproof seal
- Continuous operating temperature: -55°C to 110°C Typical Applications
- Used for Strain relief and waterproof protection of coaxial connectors
